Dear Sir,

CONSULTING SERVICES

We write to introduce our firm, System Consult, to your esteemed organization. We believe that we would add value in the following areas:

a. Data Analytics Services include but are not limited to the following:

1. Excel Training(Basic, Intermediate, Advanced)
2. Power Query and Power BI
3. Excel Programming and Automation(Including Report Automation)
4. Financial Modeling & Customized Excel Functions
5. Data Integration and Synchronisation

Our aim is to increase your productivity by optimising your investment in the tools that are used sub-optimally.

Our solution will allow you to:

1. Create robust spreadsheet solutions that can simplify and automate your tasks saving your staff both time and effort which can be expended elsewhere to add more value to your business
2. Produce reports not available in the accounting system: monthly reporting, financial analysis, capital expenditures, customer databases, annual budget planning, accounts reconciliation(bank, interbranch etc) etc based on data generated from your applications and other sources(e.g your bankers)
3. Capture data with a user friendly interface
4. Easily Integrate and Synchronise Data(from your applications and other sources) etc

We promise to deliver high quality **Data Analytics** solutions which are appropriate to the level of service you desire and require. The end deliverable will be one which **Meets** your requirements, **Is** user friendly, and **Will** be cost effective for you.

b. Banking Consultancy Giving our extensive experience in banking operations(Cash Operations, Funds Transfer, Treasury Operations, Computer Operations, Internal Audit, Marketing, Credit Appraisal, Financial Control, Business Process Improvement etc), our professional training(our partners are *professional accountants*) and having worked in the Central Bank of Nigeria, we are best placed to help review your banking operations and offer practical advice.

ABOUT US

Our team is led by Mr Abayomi Folorunsho, FCA. A professional accountant, a *Microsoft Certified Technology Specialist* and a *Certified Information System Auditor(CISA)*. He has over three decades of experience spanning financial accounting, banking operations, internal audit, business development, process improvement and strategy development.

We look forward to a mutually beneficial relationship with your organization.

Yours faithfully,

Abayomi Folorunsho, FCA
CEO
